

CAST STONE KITCHEN HOODS

Inspired by european classics

ABOUT OMEGA

Omega Mantels of Stone has been an innovator in the mantel and cast stone industry for over 30 years. As an industry leader, offering an extensive range of cast stone products that include custom fireplace mantels, cast stone kitchen hoods, and plaster mouldings, Omega continues to uphold its commitment to integrate hand crafted quality stone designs built with integrity, precision, strength and durability.

Omega cast stone kitchen hoods can be manufactured in a variety of finishes, textures and designs, using only the finest artisanal expertise and disciplined execution of old world craftsmanship. This book provides only a small sample of what Omega can offer you, bringing a multitude of variations in creativity and possibilities to your home.

Let us help and inspire you to design a kitchen hood that reflects your own personal vision and discerning taste. Our highly qualified team will transition your idea from conception to completion, ensuring meticulously hand crafted, quality custom pieces representing true architectural distinction.

Omega Mantels of Stone... the evolution of taste, evolution of design, evolution of life...

The addition of a delicate, yet ornate customized application to this cast stone hood elevates the elegance and creates a distinctive focal point.

2008.703.80

The grand height dominates in this space, with it's deep, rich colour enhancing the profile, creating a strong architectural statement piece.

Omegas' cast stone hood manufactured in a Steel Mill finish creates an elegant and subtle focal point in this kitchen. The colour hue of the hood is reflected strategically throughout the space to create uniformity and create a warm and inviting space.

2018.703.80

The depth and richness of the steel mill canopy adds a subtle contrast to the soft natural stone of the shelf and corbels creating an elegant yet modest presence.

2111.701.80

CREATING AN UNPARALLELED AFFINITY FOR LUXURY...

Omegas' extensive collection of cast stone hoods offers a world of creative combinations that is sure to please the most discerning palate and bring luxury to any kitchen.

By specializing in unique and individual customization, Omegas' knowledgeable staff will inspire you to create a truly personalized cast stone kitchen hood. Every component is interchangeable, providing you with endless combinations, providing endless creative possibilities. By incorporating different elements, like a more contemporary hood paired with classically profiled corbels, Omega can customize and create that desired look.

Omega offers three distinct finishes for their custom cast stone hoods. The Open Cast is our most porous, coarse stone that reflects an elegantly rustic antique look. The Diamond stone, which is slightly smoother, also offers a highly textured surface with slightly larger divots. Its appearance is enhanced by the highly reflective crystals throughout, rendering a slightly more unassuming aged appearance. For a more polished, clean and smoother finish, Omega also offers the Honed collection of stone. Whichever finish you chose, the end result will resonate with richness and quality, withstanding the test of time. Classic,,, timeless ,,,, elegant.

Any of Omegas' three finishes are available in a variation of colours, each producing, much like natural stone, a truly one of a kind piece. The result is a unique, customized creation that emulates a lustrous natural stone look, with lasting durability and unsurpassed quality.

Dimensional and visual details can also be customized to add the final touches. Hood canopies can be embellished with ornamental applications or customize the scale of the corbels to suit your design. By combining elements from within the collections or by designing one from your own inspiration, Omega can create a dramatic focal point within your kitchen, and create a truly unique stone cast hood.

With our extensive range of designs, textures, colours and finishes, the completed piece will certainly invite admiration and redefine the parameters of luxury cast stone kitchen hoods.

See why Omega has been a top choice for collaboration between both residential and commercial architects, kitchen manufacturers, and designers alike.

Omega will help create hoods with softer tonal finishes and still accentuate the classic sculptured details of a finely manufactured cast stone hood.

2008.703.80

Through simplified details, or more elaborate intricacies, Omega can create and customize any decorative plaster application to complete your kitchen hood area.

WHERE STYLE MEETS QUALITY AND FUNCTIONALITY

Old world charm and craftsmanship meets modern day designs. By offering a variety of custom options, including color or texture, Omega can put finishing touches on any project. This will ensure your new cast stone kitchen hood creates a distinct focal point, while creating a unique presence within your kitchen.

Your kitchen, the most central room of any home, is a place of familial and friendly gatherings, a space that invites admiration. Let Omega offer you some professional inspiration with an architectural rendition of how your custom cast stone hood will look once completed. Whether working with a new construction or assisting in a renovation process, Omegas commitment is to provide complete satisfaction.

Respecting existing cabinetry and dimensional restrictions, Omega can create and seamlessly integrate an impressive custom cast stone kitchen hood to compliment your vision. Comprehensive collaboration between our highly qualified staff and our clients is an integral part of a successful process. Choose a custom profile, from antique to contemporary, and our designs will translate effortlessly into a world of luxury.

YOUR ONLY LIMIT IS YOUR IMAGINATION

Whether you choose a more distinguished and grand presence or simply maintain a modern and unassuming profile, the variations are endless, the choices are yours... Classic, traditional, contemporary, modern, transitional...

At Omega, all of our design components such as the canopy, brackets/corbel and shelves are interchangeable, making each completed piece as unique in combination as the kitchens they enhance. Or simply draw from a personal inspiration or picture, and allow Omega to re-create and customize a piece curated specifically for you. Available in custom or standard profile, our design services will accommodate your specific requirements of width, height, depth and style to suit your decor. Choose from our vast collection of finishes, textures and colours in order to create a truly customized cast stone kitchen hood.

Redefine your sophistication... Enhance your cast stone hood with a beautifully sculpted, custom designed medallion. Our design services can create an embellishment that will accent with delicate detailing, or impress with grandeur.

Omega translates the evolution of the kitchen hood with meticulous craftsmanship, distinctively creative custom pieces that anchor your space as a true architectural centerpiece.

This sleek, sophisticated profile reflects modern strength infused with timeless simplicity.

REDEFINE THE ORDINARY

Omega has integrated the worlds of ornamental feature moulds with cast stone hoods and has created an impressive custom design collection.

Enhance the natural beauty of your cast stone hood by adding steel mill or a distinctive feature mould panel. This added 3 dimensional raised moulding, is recessed into the hood, creating both a textural and visual interest to your cast stone hood. Omega can also customize the panels for many designs and patterns, allowing endless design enhancements.

Omega feature mould designs can also be mirrored in other applications throughout the kitchen to create continuity throughout your space. Kitchen cabinetry can adorn the same moulding patterns as the hood to create a unique and balanced esthetic.

2008.703.80

MAKE YOUR CAST STONE HOOD AS INTRICATE OR AS SIMPLE AS YOU LIKE

Omegas' stone cast hood collection was developed from a passion to create unique and distinctive products. Hand crafted using old world techniques, Omega is proud to offer both standard and pre-cast customized stone hoods that will integrate quality, durability and elegance to bring you superior cast stone products.

Similar to our mantel collection, the stone cast hoods are also fully customizable, making it possible to accommodate any specific requirements. Crown moulding can also be meticulously incorporated into the kitchen hood, creating a truly seamless look.

Make your cast stone hood as intricate or as simple as you like... Pair a traditional shelf with a contemporary canopy. Anchor it with corbels that reflect your vision, or even adorn the canopy with a custom frieze that adds that final touch. All manufactured with integrity, precision and commitment to quality, ensuring your complete satisfaction.

From bold and ornate to more simplistic profiles, the options are infinite for Omega cast stone kitchen hoods and fireplace mantels. From contemporary to classic, modern to transitional, Omega offers a world of choices to create that unique piece.

All of Omegas' cast stone hood and mantel components are completely interchangeable, allowing for dimensional modifications and resulting in very personalized customized combinations. To add a finishing touch and to create an iconic statement, embellish your hood or mantel with a decorative application, delivering that sophisticated touch.

Redefine your vision of stone cast products, with Omega kitchen hoods... where taste reflects your inspiration, quality reflects our craftsmanship.

Clean, bold lines with smooth curves reflect the transitional feel of this kitchen.

707.84

Recreate a transitional feel with a bold, grand scaled hood that reflects that modern touch.

For a neoclassical inspiration, Omega can recreate intricate corbels to anchor your stone cast hood.

STEEL MILL - A FINISH FAR FROM ORDINARY

Steel mill is a liquid metal that Omega uses in some of their most elaborate creations.

This liquid metal is brushed into Omegas' handcrafted moulds prior to it being carefully hand packed with cast stone. This allows it to conform to shapes that are otherwise unachievable with rigid metals, resulting in the look and feel of metal with the versatility of liquid.

The liquid metal then becomes part of the stone itself.

Similar to the characteristics of metal, oxidization will occur over time, however Omega can offer a special treatment available that will help maintain its original colour and minimize oxidization. With variations in colour that include nickel silver, brass, copper or bronze, allow Omega to discuss your options to achieve the desired look.

For over 30 years in the cast stone industry, Omega has created one of a kind finishes and have applied them in unique and distinctive ways, producing some of the most magnificent fireplace mantels and kitchen hoods. From accent details on mantels, to kitchen hoods in part or in entirety, our Steel Mill finish delivers a refined and warm richness to any room.

GRANDSTOCK SERIES

Omegas' strong foundation of manufacturing cast stone fireplace mantels extends to include their custom cast stone kitchen hoods.... The Grandstock series.

Within this series, Omega offers two distinct models to suit your individual decor. Choose a modern esthetic, created with a more square and linear shelf, or a softer more classical profile, achieved with a curved accent shelf. If you wish to combine or interchange design elements from each of these collections, for more creative diversity, Omega will collaborate with you to ensure complete satisfaction.

The Grandstock series of cast stone kitchen hoods is available in a standard dimension, making them perfect for your more defined and simplified projects. However, this series had the ability to accommodate various heights.

By telescopic adjustment, where the upper canopy slides into the outer canopy, the Grandstock series canopy allows for fully adjustable heights, to meet your specific requirements, for ceilings of up to 9 feet.

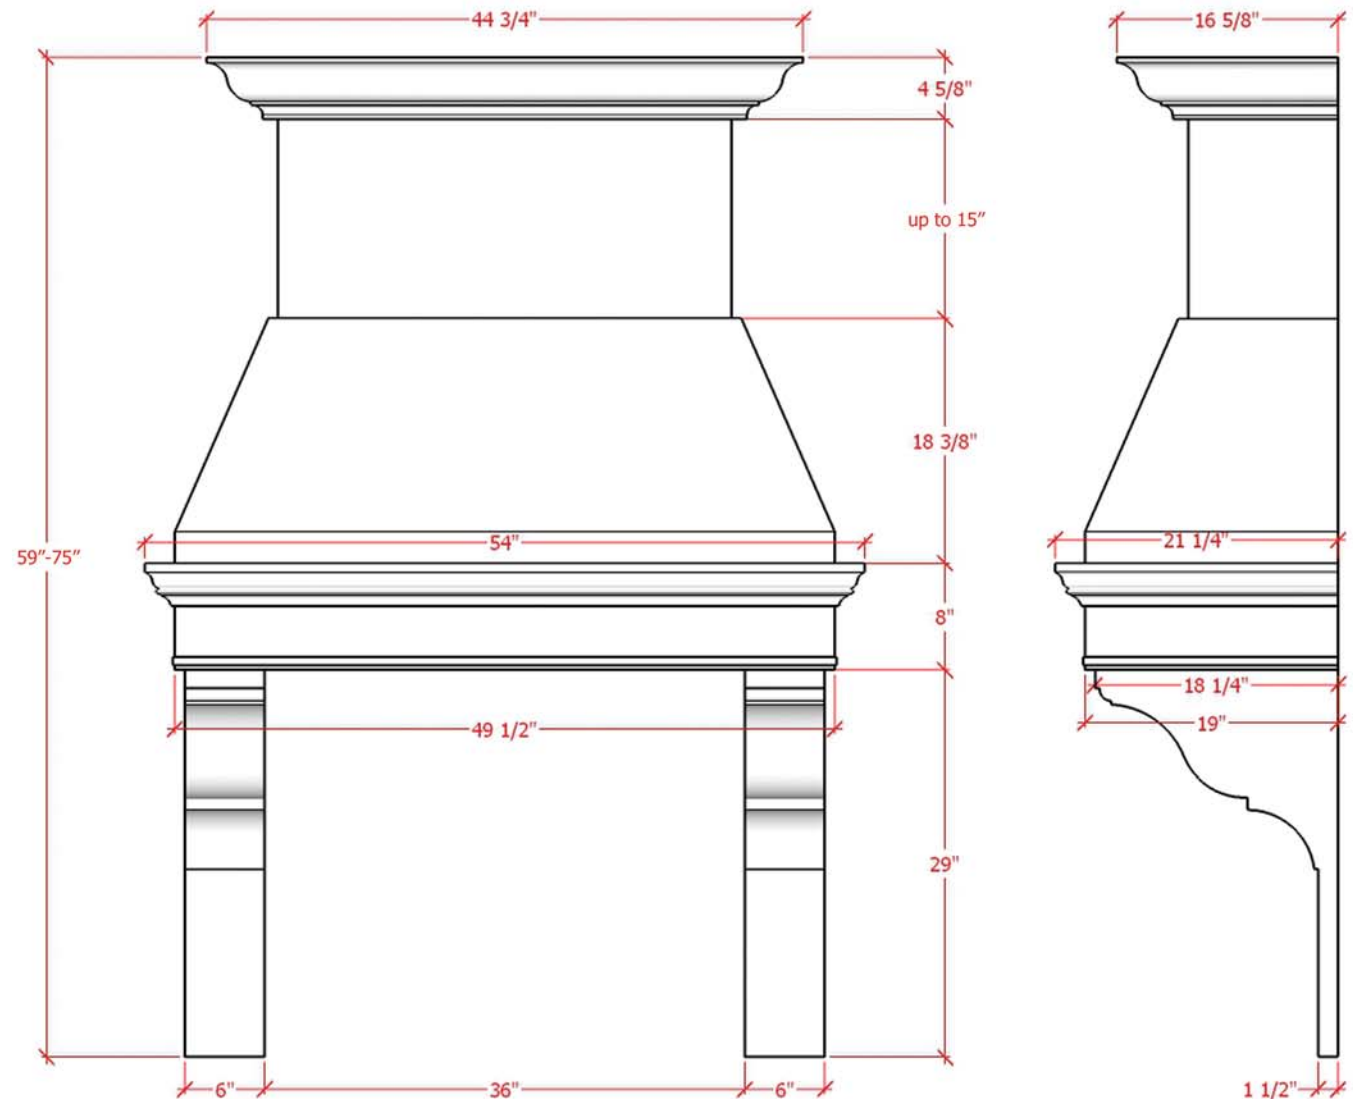

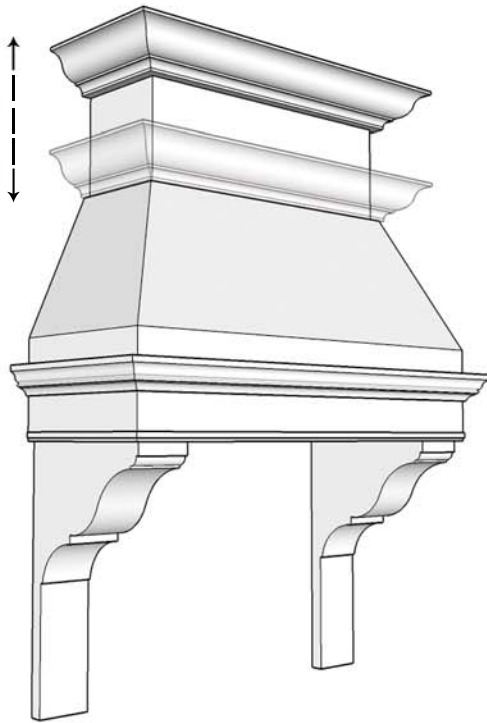

Omegas' Grandstock series of kitchen hoods is constructed of lightweight architectural cast stone, enabling a more simplified installation technique, while maintaining the strength, durability and elegance of a custom handcrafted piece.

GRANDSTOCK B.2110

The B.2110 uses the same bracket as the B.2106 but the shelf is square and linear for a more modern aesthetic.

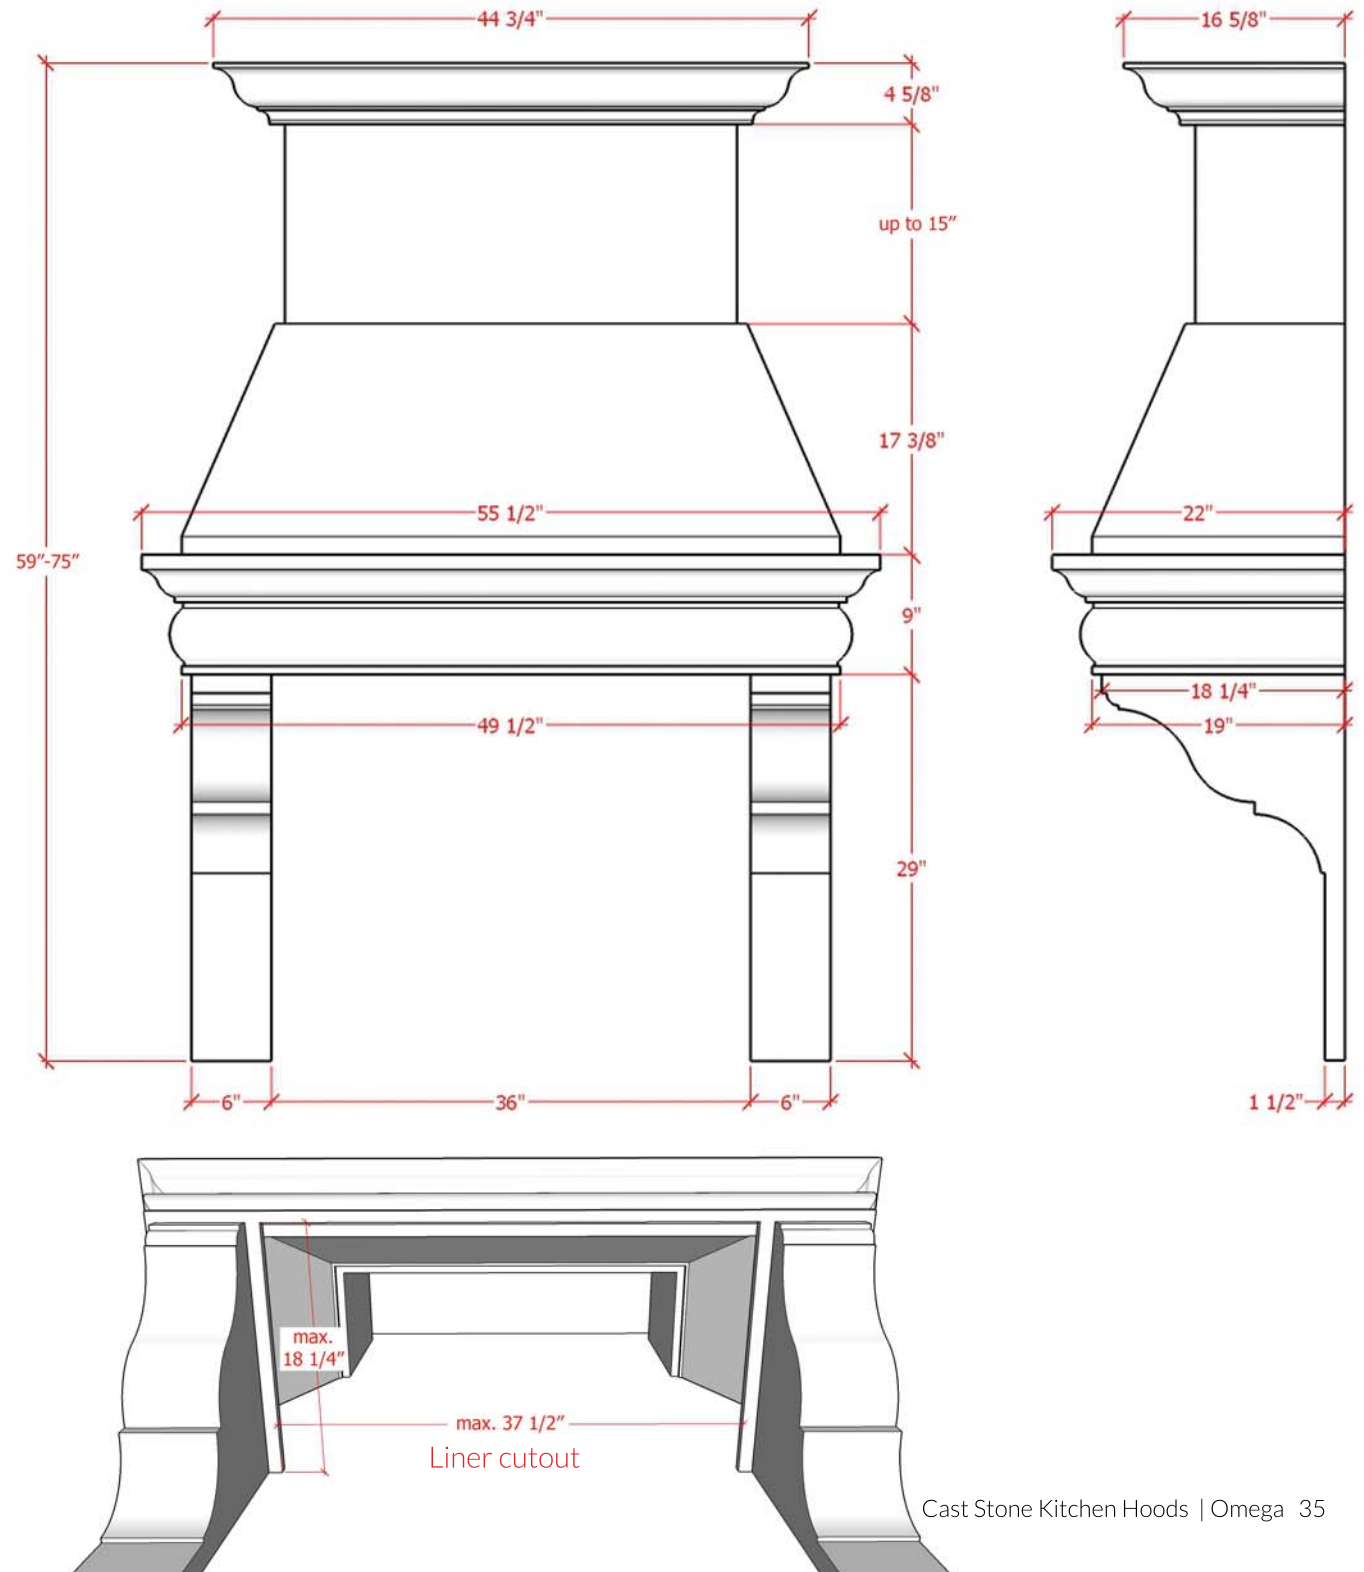

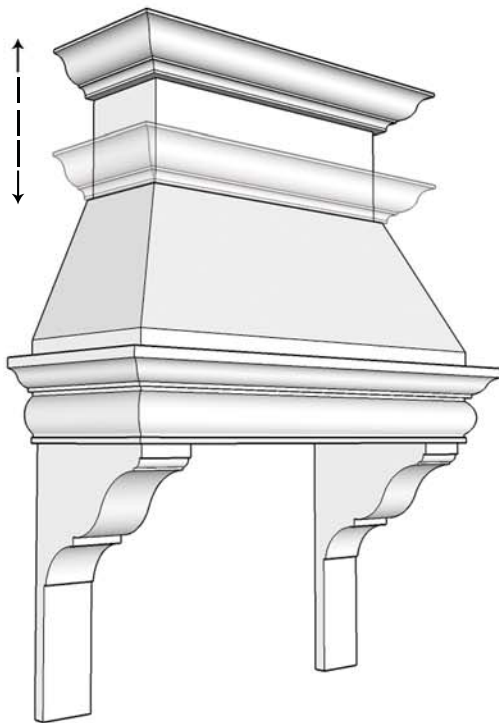

All Grandstock kitchen hoods feature a telescopic canopy to accommodate various ceiling heights and ease the installation process.

GRANDSTOCK B.2106

The B.2106 uses a curved shelf for a softer, more traditional look.

All Grandstock kitchen hoods feature a telescopic canopy to accommodate various ceiling heights and ease the installation process.

CUSTOM DESIGN SERVICES

Our three main finishes include **Opencast**, a textured, limestone like finish, **Diamond**, a smoother texture with reflective qualities and **Honed**, our smoothest most polished surface for a truly elegant look and feel.

Our **Steel Mill** finishes and accents use liquid metal during the pre cast process to incorporate of *copper*, *pewter* and *stainless steel*, into the kitchen

ORDER SAMPLES

We are pleased to offer finish and color chips samples that let you touch and experience the product in your home.

Order our color sample kit at www.omegakitchenhoods.com/samples or call toll-free **1-855-712-0123**

Omega creations are handcrafted using natural materials and exhibit subtle color and texture variations similar to quarried stone, therefore completed elements may vary from samples.
